### Welcome to Pampa Pediatrics

Upon choosing a new pediatrician for your child/ children we know that there are many questions that may arise. That is why it is so very important to have a genuine relationship with a pediatrician you can trust. We would like to thank you for scheduling a to-meet consultation with one of our providers, so that we may help you answer any questions you may have about our practice.

At Pampa Pediatrics, we understand that when we take care of your child, we are caring for your family as well. We strongly believe that in every visit or phone call we are partnering with our parents in the care of their child/children.

Parent and patient education is always a precedence in our dedication to ensuring the health and well being of our patients.

Whether your visit to our office is due to an illness or a well child check-up Pampa is always here to provide guidance to parents through the journey of raising their children. Our provider's desires are to help keep your children healthy throughout their lifetime.

All of our pediatricians are board-certified, with many years of experience. The providers and the rest of our staff here at Pampa Pediatrics all share a common mission to be kind and compassionate to our families. Our desire is to make a difference in the lives of your children and we are very grateful that you have provided us the opportunity to do so.

If after today's to-meet visit you have any questions or even after you've become a part of our practice please feel free to call our office at (770) 973-4700. For your convenience, we've included a brochure about our practice and providers and our services. You may also find other helpful information including directions to all of our office locations on our website, [www.pampapediatrics.com](http://www.pampapediatrics.com) or by joining us on Facebook or Instagram to stay up on all the latest information from our practice.

We look forward to hopefully taking care of your family in the near future.

Sincerely,

The Staff and Providers of PAMPA
